TECHNICAL SKILLS

Software development: languages like Java, Python, C# and tools such as Git

Web development: HTML / CSS / JavaScript, Django server scripting and MySQL databases

Desktop development in Java Swing and WPF

Cloud computing with AWS S3 and DevOps with Docker

Fluent in spoken and written English and French, fluent in spoken Mandarin Chinese

Using Word, Excel, PowerPoint to create documents

PROJECTS

FastTask: Engineered a full stack to-do list application with a Vanilla JS UI and a full backend

- Browser notifications, CRUD operations and authentication handled with Django and MySQL
- Profile pictures and static files stored in an AWS S3 bucket decreasing load time and storage load on the main server
- Containerization with Docker and deployment with Render, accelerating deployment process and ensuring consistency between machines and environments

PDFBookmarks: Built a PDF reader implemented using C# and WPF

- Dragging & dropping file loading to a file list reducing time for finding previously opened files
- Json file history tracking for persistence
- PDFs rendered using WebView2 for ease of implementation

Billionaire!: Developed a business management game in Java and Swing

- Built UI from scratch, designed upgrade mechanics for all businesses and permanent items
- Created a rotating item shop for temporary items
- Balanced game mechanics with exponential cost / revenue scaling

EDUCATION

August 2024 - December 2028 (expected) **McGill university**

Bachelor's degree in Co-op in Software Engineering
Relevant coursework: DSA, OOP, software systems, digital logic, model-based programming, computer organization, programming language theory, linear algebra, calculus 1 & 2 & 3, vector calculus, ODEs, probability, statistics, discrete mathematics, electric circuits

WORK EXPERIENCE

Jul. 2022 - Aug. 2024 **McDonald's, Cook**

Helped with preparing meals at McDonald's and various other tasks

Sep. 2023 - Dec. 2023 **Tutor, Collège de Maisonneuve**

Tutored struggling students in physics 1 to help them pass the course
